Winter Semester 2025 - 2026

BAENG101P

Technical English Communication Internal Assessment – 5

Maximum Marks – 10

Creating a Portfolio

Activity: Create a Professional Portfolio website/ document.

How to share: If you have created a portfolio website, please share the link in a PDF or Word document. If you have created a portfolio as a document, upload it directly on VTop.

Criteria	Description	Points (out of 10)
Content Quality	Content is creative and well researched, technically accurate, relevant to the domain; includes projects, skills, and demonstrates a clear understanding and application (The student can invent details for this section).	**3**
Organization & Structure	Clear sections (About, Projects, Skills, Resume, Contact); logical flow; easy navigation (for website) or well-structured layout (for PDF).	**2**
Writing Style & Clarity	Clear, concise, and professional language; appropriate technical tone; effective explanation of projects and ideas.	**1.5**
Grammar & Mechanics	Correct spelling, grammar, and punctuation; neat and error-free presentation.	**1**
Technical Presentation & Design	Visual appeal, clean layout, readability; effective use of design elements, formatting, and consistency across pages/sections.	**1**
Use of Links / Projects / Multimedia	Proper inclusion of project links (GitHub, demos), images, videos, or prototypes that enhance understanding of work.	**1**

Criteria	Description	Points (out of 10)
Creativity & Personal Branding	Unique presentation, originality, strong personal identity (theme, style, storytelling); ability to stand out.	**0.5**
